PROFESSIONAL EXPERIENCE

Code Ninjas, Irvine, CA | Code Sensei   April 2023 - Present

- Actively mentor and guide over 30 students on their coding journey, fostering a solid foundation in Python and Java programming languages.
- Mentor and support students in advancing through their belt curriculum, providing personalized guidance and insights to enhance their coding proficiency.
- Collaborate effectively with colleagues, contributing to a team-oriented environment that values shared success and mutual growth.

PROJECTS

Personal Portfolio Website | Web Developer and Designer   June 2023 - Present

- Individually designed and developed a dynamic website for showcasing my projects, skills, and accomplishments.
- Created a responsive design using HTML, CSS, and JavaScript to ensure optimal user experience across various devices and screen sizes.
- Crafted a visually appealing and user-friendly interface, leveraging design principles and UI/UX best practices.
- Implemented interactive elements, such as smooth scrolling and dynamic navigation, enhancing user engagement and usability.

ReceiptBites | UX/UI Designer   March 2023 - June 2023

- Produced over 20 meticulously crafted app screens using Figma, showcasing a high level of design expertise and contributing to the visual impact of our app prototype.
- Conducted extensive user research and applied iterative design based on qualitative feedback, enhancing our team's app performance during each evaluation phase.
- Facilitated usability testing sessions with 15 participants, refining our app's usability and functionality through iterative design enhancements.
- Conceptualized and translated intricate user requirements into highly functional UI designs, contributing significantly to our team's overall score and positioning.

LEADERSHIP EXPERIENCE

Design at UCI, Irvine, CA | Design Lead   Jan 2023 - March 2023

- Led a team of 4 undergraduates to develop an app that competed with 8 other teams using design strategies on Figma.
- Introduced and trained team members on Figma, ensuring their proficiency and comfort with the platform.
- Developed and implemented a well-structured schedule for the team, effectively managing project timelines and deliverables.
- Demonstrated strong leadership abilities by effectively managing team dynamics and fostering a productive and inclusive work environment.

SKILLS

Tools: Python, Java, Figma, Canva, HTML, CSS, JavaScript, Git, Google Suite

Industry Knowledge: User Interface, User Experience, User Research, Wireframing, Prototyping, Information Architecture, Usability testing, Interviewing, Surveying
